Selectmen's Meeting

OCTOBER 23, 1984 - by VIRGINIA ARRAL

UP-DATE ON MATTAPOISETT'S TELEPHONE SYSTEM -- TOUCHTONE IN 1985

"A minute becomes an hour when an ill person is waiting for a dial tone on a temporarily dead line", said Senator William Q. "Biff" MacLean to representatives of the New England Telephone Company at last week's Selectmen's meeting.

Senator MacLean stressed this point at the joint meeting to clarify the problems Mattapoisett telephone users have been experiencing since the divesture from American Tel. and Tel. in January.

Sandra Williams, manager of Public and Community Relations, and David Cohen, District Manager of External Affairs, emphasized again the toll-free numbers that customers can call to report problems -- 555-1611 for residences and 555-1515 for businesses. Ms. Williams said these numbers are in Andover where the electronic system will relay the problem site to the Fall River maintenance operation. They will, in turn, determine just where and what the problem is and respond accordingly.

"Service is also the public's responsibility", Ms. Williams said, and "you must report the trouble so a pattern analysis can be made as to the time, location and weather." Selectmen Chairman John N. DeCosta claimed he was less than satisfied with the answers he received when he called the toll-free numbers to report a complaint.

The major complaint was the dead line when trying to make a call. Selectman Frank Suzan noted his business line at Dennis Mahoney and Sons, Inc. on Fairhaven Road has been dead for up to 30 minutes at one time; many times around 3:00 p.m. when the schools are out. DeCosta and Executive Secretary Carol Adams also have experienced similar dead lines.

Senator MacLean commented to the telephone company representatives that what with all your sophisticated equipment you should be able to address this problem.

Ms. Williams explained the Mattapoisett customers may start buying touchtone equipment now as the system will be in operation by the end of 1985. She noted the present step-by-step system will eliminate one step when it goes touchtone. It will still have a dial operation inside but it will respond much faster. She added that the true electronic touchtone will not become effective in Mattapoisett until the 1990's because of economic reasons.

In responding to a question from a member of the board, Mr. Cohen said the service will be as good as the telephones the public buys. The least expensive models will not give the same service as one costing more.

Selectman Suzan asked about the touchtone system with an electronic PBX in an office setting. Ms. Williams said there would have to be changes made but that she would get back to him with more definite information.

The customer relations manager explained the telephone company has spent 3/4 of a million dollars from 1982 to 1985 on improvements in Mattapoisett and is expected to spend a total of over one million by the end of 1985. Both representatives admitted there will always be problems but in order to get good quality service all must work together.

In other business, Selectmen:

APPOINTED E. Robert "Bob" Garde as the new plumbing inspector, effective immediately.

Following what the three Selectmen termed a difficult decision because of the high caliber of the applicants, Garde was named as the successor to George Heath who recently retired.

Garde, who has been working with Heath and bought his business on October 1st, said he has been working in the plumbing trade for about 20 years and has worked on a broad range of building types, both home and industrial. He has had his Masters License for two years.

Other applicants were Peter B. Perkins and Clifford Tripp of Mattapoisett and William J. Alphonse of Fairhaven.

VOTED to waive its right to the property on Acushnet Road owned by Antone and Cynthia Souza. The board approved the use of Lots 1 and 3, presently farmland, to be used as house lots.

ACCEPTED AN INVITATION from the Fin, Fur and Feather Club to attend a venison stew supper. (It was held on October 25.)

NOTED they will ask John Bowman to check the emergency generator in the rear of the Town Hall which controls the Town Hall and the Police Station as Russell Peirce, electrician, suggested the voltage regulator, oil pressure and temperature gauge needed looking at by a mechanic.

AGREED to purchase ID cards for town employees to wear as a means of verifying their status to the public, especially those working in the water and sewer department, and the assessors. The cards will be purchased from Hiller Printing at a cost of $39.

SENATOR MACLEAN REPORTS ON PILOT PROGRAM IN FAIRHAVEN SCHOOL

In a report to the Board of Selectmen, Senator William Q. "Biff" MacLean told of the Pilot Program to be held at the old Tripp School on Bridge Street in Fairhaven for the handicapped adult.

MacLean said he wanted to clear up the misconception that because the school is in Fairhaven it is only for Fairhaven students. "This is NOT the case", he said. "Students will be coming from the area stretching from Dartmouth to Bourne."

The comprehensive program is new to southeastern Massachusetts and is expected to receive about 78 students -- those students who have left high school or are over the age of 21 with no place to go, the Senator explained. The program will have instruction

Starting with a $120,000 grant from the State Department of Mental Health, the school is expected to open in January. The school has seven classrooms and a large auditorium.

The Senator said this has been a true experience in community sharing as various businesses and schools have been helping to get the physical plant ready for occupancy in January. Everybody has chipped in to help!

The Fairhaven Savings Bank, under the supervision of George Graves, has started a fund to repair the roof, the cafeteria and to install showers capable of handling the handicapped, expected to cost about $35,000 to $40,000. Anyone wishing to help this worthy cause may send donations to the Fairhaven Savings Bank, in care of George Graves.

MacLean said in-kind donations have been received from Babbitt Steam Specialty Company for a heater burner; Milhench, Inc., piping for the furnace; Old Colony Vocational School, electrical work; New Bedford Vocational School, carpentry and painting; and Warren Brothers, ramps for the handicapped.

Senator MacLean termed this project a Pilot Program because it is the only such operation in the region. There are others in use, but this is the only one to be conducted as a first-class operation.

ents' and Grandparents' Table" with some of the more expensive paperbacks, a few irresistible children's hardbacks and some books on parenting. The Bookstall in Marion is providing the stock for this table and is also supplying some paperback classics unobtainable from the usual sources.

Except for the special table, the books on sale will range from picture books for pre-schoolers to books suitable for advanced sixth graders. Every effort has been made to provide books that match the reading levels and interests of the local communities.

There is a saving of 10% to each customer on every book purchased; 5% of this saving is a direct discount and 5% is because there is no tax to pay.

The Sippican Book Fair is a volunteer activity, sponsored by VASE (Volunteers at Sippican Elementary), and all the profits go to benefit the school library and resource center and the children at the school; therefore no tax.

The median prices range from $1.95 to $2.95 per book. However, there will be tables of especially chosen books of lower price but high quality and, of course, the higher priced "Grandparents' Table".

END THE ARMS RACE

1. *Ronald Reagan has abandoned serious negotiations with our adversaries to pursue the most dangerous peacetime military build-up in our history ... $30 million every hour every day ... 17,000 new nuclear weapons.*

Walter Mondale, as President, would negotiate with the Soviet Union for a total nuclear weapons freeze. On Inauguration Day, he will challenge the Soviets to an immediate ban on testing and deployment of new nuclear warheads and missiles while the talks get underway.

2. *Ronald Reagan is the first President not to meet with the Soviet leader since Herbert Hoover.*

Walter Mondale believes that annual summit meetings with Soviet leaders are essential in these dangerous times.

3. *Ronald Reagan is the first president since the nuclear age began who has failed to negotiate any arms control treaty at all. In fact, Mr. Reagan has vehemently opposed* all *past treaties negotiated by Democratic and Republican Presidents alike.*

Walter Mondale has been a staunch advocate of arms control as a U.S. Senator, as a Vice President and as a private citizen. He is commited to an immediate resumption of tough, reasoned negotiations with the Soviet Union.

4. *Ronald Reagan is eager to expand the arms race into outerspace—until now the arena of remarkable scientific (and peaceful) achievements.*

Walter Mondale, if elected, will work to negotiate a treaty with the Soviet Union banning all weapons in outer space.

The choice is clear.

"Have you heard the latest about Gerry Studds?"
(Some people hope you won't...)

"I've worked closely with Gerry for more than a decade. There is no more stout-hearted defender of older Americans in the Congress."

-- Congressman Claude Pepper of Florida
House Aging Committee

"Southeastern Massachusetts could not ask for a more productive or effective Congressman than Gerry Studds."

-- Pete McCloskey, former Senior Republican on the House Merchant Marine and Fisheries Committee

" Gerry has a well-deserved reputation for hard work, accessibility, personal honesty and intense dedication to the concerns of his district."

-- Senator Paul Tsongas of Massachusetts

"Gerry has fought on behalf of the New England fishing industry with persistance and effectiveness from the first day he entered the Congress. The most recent example was the controversial striped bass bill, for which he won approval despite opposition from those who wanted to weaken the bill and from those who wished to make it more restrictive. It was a brilliant piece of work, and it could not have happened without Gerry Studds."

-- Congressman John Breaux of Louisiana, Chairman,
House Subcommittee on Fisheries

The voters in the 10th District and the politicians agree on one thing -- Gerry Studds is the most effective Congressman this district's ever had.

On November 6th, re-elect Congressman Gerry Studds.

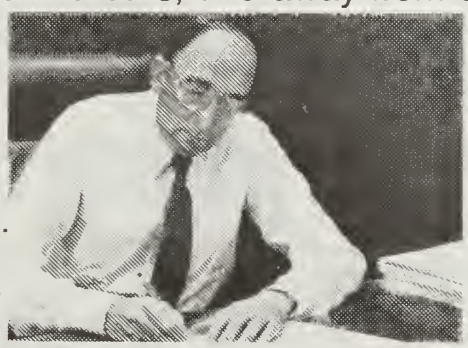
IF NED BLEW HIS OWN HORN MORE, WE WOULDN'T HAVE TO RUN THIS AD

Senator Kirby is an unusual politician. He's modest.

During the year, when Ned does things like author a major piece of legislation, or get hundreds of thousands of new dollars in State aid to his District, he doesn't run around proclaiming his greatness. He simply goes looking for solutions to other District problems. Effectively.

Like working with New England Telephone to speed up the installation of new equipment in his District. Like fighting the battle to keep sex offenders behind bars, and away from our children.



It's what we mean by "no grandstanding . . . just hard work".

And it's why we need to keep Ned Kirby in the State Senate.

On election day, Tuesday, November 6, blow your horn for Ned. Vote.

The Chemical People

ORR CHEMICAL PEOPLE TASK FORCE

What's the problem?

*The single leading cause of death among 15 to 24 year olds is drunk driving.

*Roughly two-thirds of all Americans try an illicit drug before they finish high school.

*One in 16 high school seniors smokes marijuana daily.

*Over one-third have illicitly used drugs other than marijuana.

*34 percent of high school seniors regularly abuse drugs.

*About one in 16 drinks alcohol daily; 41 percent regularly abuse alcohol, with most of them starting chemical use between the ages of 11 and 14.

*While the use of many illicit drugs is declining from peak levels attained in the 70's, substance abuse in the U.S. is the highest of any developed country in the world.

*One of the biggest barriers to alleviating the problem is the wall of denial -- by users and those around them.

*Your town is not immune to substance abuse problems.

What's the solution? There are no fast, easy answers, no cure-alls. However, you can help your local Chemical People Task Force if you are willing to make a commitment of time, energy, money, or all of the above. The ORR Chemical People Task Force organized a year ago as a result of a national public television outreach project. Its purposes include community education, early prevention of chemical abuse, and development of chemical abuse intervention programs. The Task Force still exists and is openly seeking to enlist any individuals in the Marion-Mattapoisett-Rochester area who would be willing to help.

One need not be a parent -- any community members, including young people of school age, are welcome. We will be meeting next

"DOLLARS FOR SCHOLARS" THANKS MANY

The MMR Tri-Town "Dollars for Scholars" Board of Trustees wishes to thank publicly all those who made the Phone-a-Thon on October 13 and 14 such a success. The entire event was coordinated by "Dollars for Scholars" board member Kathy Gayoski of Rochester. Posters and advertisements were created by Susan Aspden, a 1984 graduate of Old Rochester Regional High School. Special thanks go to Dunn Insurance and Real Estate in Mattapoisett for donating their facilities and to Sippican Ocean Systems in Marion for donating their facilities and providing lunch for the volunteers.

Many, many residents of all ages from all three towns willingly gave up a portion of their weekend to make phone calls. Without this spirit of cooperation the Phone-a-Thon

Glass Museum

GLASS MUSEUM TO RELEASE CHRISTMAS PLATE

The original Christmas Cup Plate, commissioned by The New Bedford Glass Museum since 1976, was introduced at the annual convention of the Pairpoint Cup Plate Collectors in Hyannis on October 27.

Limited to an edition of 1500, the 1984 Christmas Cup Plate will be on sale following the Convention, for a limited time to Museum members only (October 28-November 4), and on November 6 will be on sale to the general public while the edition lasts.

The 1984 design is a "Teddy Bear Duo", created for the Museum by artist Barbara Crowe Bushell. The motif was chosen by the Museum for its annual Christmas Cup Plate image, since the Presidential administration of Theodore Roosevelt made "Teddy" bears a universal symbol for love and affection. The 1984 edition will be available in clear and amber crystal.

The 1984 Christmas Cup Plate costs $8.00. It will be available in the New Bedford Glass Museum's Gallery Shop, 50 North Second Street, or by mail order. For further information please call 994-0115.

JANE RUSSELL COMES TO ZEITERION THEATRE

Jane Russell, Connie Haines, Beryl Davis and the Fabulous Forties Orchestra will be live on stage at the Zeiterion Theatre in New Bedford on Sunday, November 4th, in the spectacular musical celebration, "Stars & Songs". The performance is the first of three events sponsored by Entre Computer Center.

Musical numbers to be performed by this illustrious trio include: Diamonds Are A Girl's Best Friend, Hooray for Hollywood, What Is This Thing Called Love, Sunny Side of the Street, Stardust, and numerous other selections from their star studded careers.

The performance, a celebration of hope, love and happiness, also features inspirational selections including Old Time Religion, Gonna Build a Mountain and When the Saints Go Marching In.

Jane Russell, the sensational screen star; Connie Haines, Tommy Dorsey's leading songstress; and Beryl Davis, Frank Sinatra's co-star on the Lucky Strike Hit Parade, started their "joint career" over thirty years ago at a Hollywood charity affair. Needing a finale for their show, they put together a 200 year old spiritual called Do Lord. Do Lord was a million record best seller and the beginning of 24 hit records and 14 years of cross-country tours of the United States and as far away as the Orient.

The trio headlined at the top nightclubs and hotel showrooms including the Riviera and Tropicana in Las Vegas, New York's Copacabana, Miami's Fountainbleau Hotel, and New Orleans' Roosevelt Hotel. They have guest-starred on television with such greats as

Children of the ages 8-16 can register for this theatre workshop by calling the Theatre at 224-4888.

The focal point of the workshop is to teach children acting and communication skills: projection, articulation, creative movement, poise, self-confidence through the active participation in theatrical games and exercises. Each child will develop these skills through applying them to a role assigned to them by a professional director of Theatre.

"Laughing room only" is the only way to describe this hilarious farce. The fun begins when Shelly and Victor, direct descendants of Doctor Frankenstein's wife and monster, enroll as teenagers in the local high school and bring pandemonium to the school's class schedule. The plot thickens and explodes when some students discover x-rays that prove the new arrivals are not all that human!

Frankenstein fans who wish to join this theatre workshop may obtain further information by calling the Priscilla Beach Theatre at 224-4888.

Priscilla Beach Theatre is a professional non-profit Drama School for children, teenagers, and adults which does not discriminate according to sex, color, religion, nationality or age.

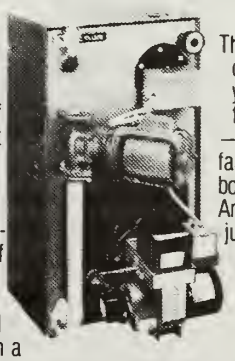
HEAT YOUR HOME WITH 27% LESS OIL.

Many oil boilers in America operate at only 60% efficiency (which means 40% of the heat is going right up the chimney). A new Weil-McLain Model 66HE oil boiler operates at an impressive 82% efficiency. If you have an old fuel-wasting boiler, you could reduce your fuel oil usage by 27% with a new 66HE high-efficiency oil boiler.



The 66HE oil boiler is made of cast iron to give you years of dependable comfort. It's from Weil-McLain — America's leading manufacturer of home heating boilers for over a century. And we have one that's just the right size for your home.

Call us today. We'll show you how you can cut costly energy waste.
